

# Hobby 2011

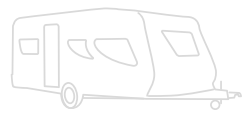

DE LUXE

EXCELLENT

PRESTIGE

LA VITA

Dear Caravanning Friends,

We have been building caravans for over 43 years at our company's site in Fockbek (near Rendsburg), Germany. Since the beginning, we have always strived to make each new generation of caravans better than the last. And we have achieved this time and again by introducing new ideas, technical innovations and contemporary features. Experienced staff, modern production facilities and comprehensive expertise ensure our consistently high standards and have made Hobby the world's number one caravan manufacturer.

We recently assembled our 500,000th caravan. We are immensely proud of this achievement, which reflects the enormous confidence our customers have in our products. This is further emphasised by our excellent registration figures – with a market share of over 40 per cent, the Hobby Group is by far the most popular caravan manufacturer in Germany. The same is true in a number of other European countries as well.

Our success inspires us to make our caravans even better. We have done this once again for the 2011 season. We offer well-designed models with comprehensive features that come as standard and an excellent price–performance ratio.

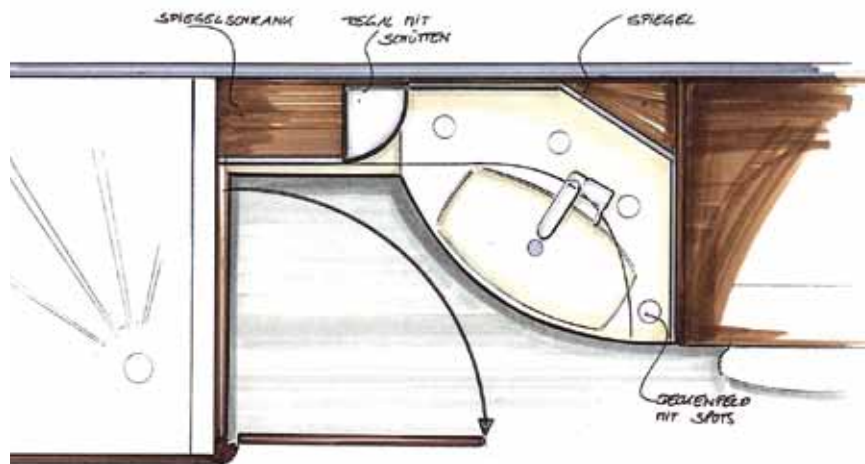

Find out for yourself and select your dream caravan from our diverse range of 51 models and five different series.

Yours sincerely

Handwritten signature of Harald Striewski in blue ink.

Harald Striewski  
owner

## ATMOSPHERE AND COMFORT

Hobby caravans enjoy so much success and popularity because they offer both a relaxing atmosphere and optimum practicality. The large variety of Hobby layouts offers the perfect living space for all of your needs. Families can choose from numerous alternatives with comfortable children's beds, while couples looking for a cosier option can't go wrong with our queen-size bed models. Our single-bed models are also hugely popular. Each of our caravans offers lots of storage room along with a

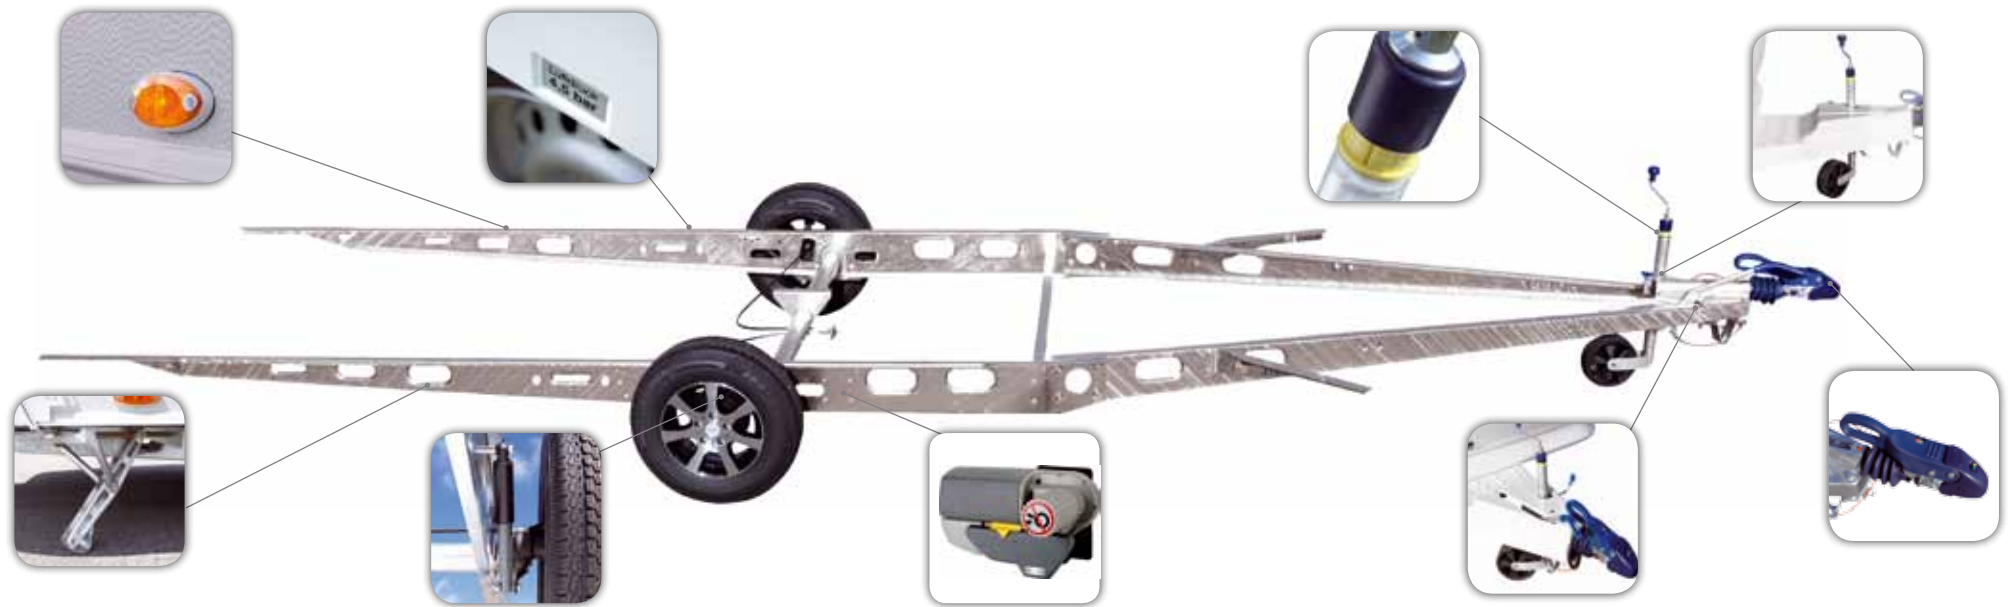

well-designed lighting system, ensuring a pleasant atmosphere at all times. We also place great value on the little things, such as thoughtful details: with our new Slim Tower fridge and the large drawers in our new kitchens, everything is easily accessible. You'll just love our redesigned bathroom, where emphasis is placed on functionality and easy cleaning.

## EVERYTHING YOU'LL NEED – AND MORE

With a Hobby caravan, you can set off on your journey safe in the knowledge that you won't have to buy any expensive extras. The hot-water unit, central-lighting control system, high-quality roof hood, combi-cassette roller blinds and adjustable windows are just a few examples of our standard features.

It's well worth comparing to other manufacturers!

# ARGUMENTS

## SAFETY AND COMFORT

Hobby is the safe choice – in every respect: the safety coupling stabilizes the caravan against side winds, uneven roads and any sudden steering manoeuvres. The overrun braking system ensures the caravan brakes independently whenever the towing vehicle brakes. An automatic reversing system prevents the brakes from blocking the wheels during reversing. Since the chassis are fitted with stabilising devices, high-quality tyres and hydraulic axle shock absorbers, all Hobby caravans are allowed

to travel up to 100 km/h in Germany. Screw-down supports at the front and rear stabilize your caravan when parked. Our larger models (from type 540) are fitted with special, pull-down, heavy-load supports. The trailer's nose-weight display, which is fitted as standard to many of our models, shows whether the caravan has been optimally loaded or whether the centre of gravity is too far forward or back. Hobby has also focused on ride comfort during the best time of the year: a torsion bar

spring axle with longitudinal member technology and a hot-dip galvanised chassis offer on-the-road comfort and a long lifespan. And if you want to use a Truma-Mover, which allows the caravan to be parked remotely, Hobby also has the solution: preparation for system installation is included among the standard features and saves time, weight and money when retrofitting.

## LIGHTING CONTROL SYSTEM AND INTELLIGENT ENERGY SUPPLY

On board your caravan, you are in total control: with our operating panel, which is now available as an option with an LED display, you can centrally control all electric devices in your caravan. Control the lights, floor heating, fresh water fill level, HELLA

battery sensor (which, as an exception, we are only able to offer as a special option) and more. And if one lighting set-up is particular appealing, you can now easily save it with the new memory function and recall it with the push of a button at any time.

## INDOOR CLIMATE / SUITABILITY FOR WINTER

Hobby caravans are also perfect for winter caravanning. They are extremely well insulated, ensuring the cold stays outside, while high-quality heating systems by renowned manufacturers keep you warm and cosy inside. Intelligent furniture units also ensure a comfortable, pleasant climate within the caravan. Several furniture elements have been designed to allow air to circulate between them and the exterior wall. Therefore, damp and mould do not stand a chance.

# ARGUMENTS

## QUALITY AND GUARANTEE

Quality is a key component of Hobby's corporate philosophy. Our management system is certified according to the latest ISO 9001:2008 standards. The quality of our caravans is constantly monitored and documented at fixed production stations. Only when all quality checks have been successfully completed are Hobby caravans made available to the public. Our vehicles are guaranteed to be watertight for five years.

## AWARDS

The success of Hobby caravans is not just a result of their excellent price-performance ratio – it also comes down to constant investments made in quality and development. Over the course of its history, Hobby has won a variety of awards. Our vehicles have been named among the 'Caravans of the Year' on numerous occasions by the German magazine Caravanning. Camping, Cars & Caravans's expert tests praised in particular the excellent quality of accommodation offered by our products as well

as their innovative technology. Europe's largest camping magazine, Dutch publication Kampeer & Caravan Kampioen (KCK), named the Hobby La Vita bionda its '2009 Caravan of the Year'. The judges of the highly sought-after award based their decision on the caravan's innovative design, elegant furniture, comprehensive range of standard features and aerodynamic front section.

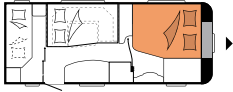

Legal note  
Due to the wide number of different Hobby ranges and models, it is not possible to differentiate between features in the Arguments section. We would like to point out that some arguments relate to optional extras and that not all features are available for every model. As such, the arguments outlined are not to be taken as guaranteed product features. Thank you for your understanding.

# SLEEPING

*How do you enjoy sleeping?*

Enjoy the peace and quiet. Sleep very soundly. Wake up and continue dreaming. Alone, together or with the whole family. Our selection of beds is just as individual as you are. Do you enjoy sleeping in comfortable Fixed beds or do you prefer practical, single beds? They all have one thing in common: you will really relax and unwind in them. And that's what counts on a good holiday!

Live flexibly – sleep flexibly.

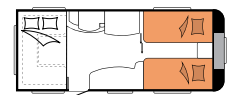

With the practical bed extension, single beds can be easily transformed into double beds as required ... and if children are travelling, our layouts with bunk beds are perfect.

The hydraulic bed stowaway mechanism offers even greater flexibility, providing easy access to the storage room beneath the French beds.

Whatever option you choose, each model offers the same high-quality slatted frames and comfortable interior sprung mattresses.

# BATHROOM

*How do you like to shower?*

The day begins in the washroom. What type of washroom do you want on holiday? Large washroom, external washroom or compact washroom – Hobby has thought up practical solutions with elegant design and optimal lighting. A cold shower in the morning? A hot shower in the evening? Shower just the way you like it.

Tap Cascada

EXCELLENT 560 UL

Centre washroom

You'll be bright and breezy every holiday morning, as soon as you've reached for your toothbrush.

Our fully redesigned external washroom boasts a particularly large basin with a refreshing, modern style. We have also worked with Thetford to further optimise the WC according to the proportions of the caravan. Smooth surfaces and seals around the edge make the new ergonomic toilet even easier to clean.

# COOKING

*How do you like to cook?*

Our new kitchen block with extra-wide draws features attractive, modern styling and offers a host of storage space. Everything is stowed securely: the central locking system fitted to most of the kitchens as standard means all draws can be locked with just one movement, ensuring nothing can fall out while travelling.

Refrigeration couldn't be better. Exclusive to Hobby kitchens, the slimline, space-saving Slim Tower offers a capacity of up to 140 litres, and a removable 12-litre ice box.

# LIVING

*How do you like to live?*

Sit down. Put your feet up. Read a good book. You'd rather play games with the children? Or are friends coming over for dinner? There's enough room here!

Round, centre or side seating group? The heart of your Hobby caravan is as individual as you are.

Our living ideas for your caravan respond to your demands for more relaxation and leisure time. Choose for yourself.

Lights that set the mood!

Would you prefer a bright light to work under or a cosy evening ambience? With the practical operating panel for lighting controls, you can set the mood in your caravan at any time, while simultaneously overseeing all on-board electronics.

The new season's Hobby highlights also include partition lights in the entrance area and a backlit furniture flap in our Prestige series.

# LIVING

A pleasant caravan temperature?  
Of course – day in, day out!  
Sophisticated furniture units ensure the air circulates perfectly in our caravans: warm air can rise behind furniture that is set slightly away from the walls. As such, damp and mould do not stand a chance.

Let nothing and nobody disturb you ...

Once the Hobby multifunction blind has been pulled down, the light from the brightest full moon is blacked out, allowing you to enjoy uninterrupted sleep.

Waking up is not a problem either – with just a couple of adjustments, air and light flood the caravan. And thanks to the pleated protection blind, not a single midge can make an unwanted visit.

# LIVING

TV cupboard in entrance

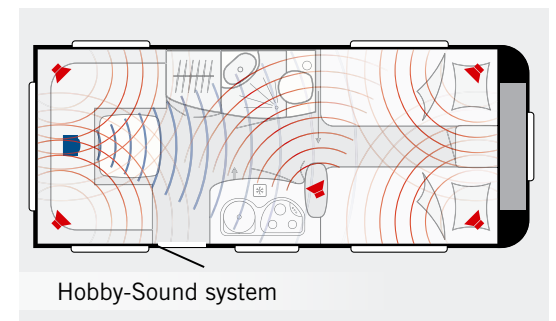

Awning external socket

Swinging TV arm

The best entertainment is guaranteed with Hobby. Would you like to watch TV? From the seating unit or bed? The swinging TV arm can be adjusted according to your needs. Or would you rather sit in the awning? No problem – Hobby also offers a TV socket here.

Music lovers will also be delighted. Our JVC sound system transforms your caravan into a concert hall. The system can play traditional CDs, as well as MP3 and WMA discs.

# The Hobby caravan family – as lovely as your holiday!

Do you like things to be modern? Or do you prefer things to be classic and stylish or luxurious? We have the model series for all your wishes. Our Hobby caravan family is as varied as your own style. Every model series has many different layout versions. You decide what is important to you!

Whether for two or for the whole family, for a day or six weeks – every Hobby caravan has its own unique and strong personality. You will get lots of practical holiday solutions in all Hobby caravans. But every model series has its own distinctive decor. Let yourself be fascinated and find your very own caravan.

Your Hobby caravan. As individual as you are.

# DE LUXE

## *Simply beautiful*

No rushing from one appointment to the next. A stopover in Rome? The sun decides whether we continue driving or not. We have everything that we need on holiday with us. The HOBBY De Luxe is practical and comfortable. The youthful design with

modern technology and many different layouts has the right holiday solution for every family – making caravanning simple. Simply beautiful!

# DE LUXE

DE LUXE 545 KMF

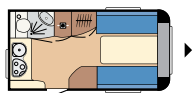

DE LUXE 440 SF

# DE LUXE

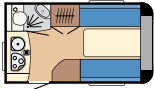

The lighter way to enjoy caravanning!  
With the new 350 TB and 380 TB layouts,  
we have focused on optimising weight. The  
two featherweights weigh in at no more than  
1,100 kilogrammes. A VW Golf-sized vehi-  
cle can therefore be used to tow them on  
holiday.

Despite their lightweight construction, the  
new caravans are anything but austere and  
boast a wide range of standard features.  
Just as you would expect from Hobby.

# LA VITA

## *Excitingly different.*

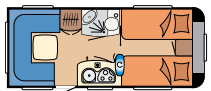

Beautiful design expresses your take on life. What caravan could better suit your lifestyle than a La Vita?

With its silver, finely structured, mini-hammered styling, curved windows and alloy wheels, the La Vita veneto is both dynamic and sporty. On the inside, however, it is warm and cosy.

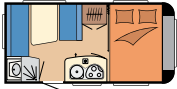

The La Vita bionda is the right choice for those who like things light and welcoming. It is characterised by its modern interior design.

Just climb on board, kick back, and feel great!

**Standard fittings all included:**  
**These features are included as standard in ALL Hobby caravans**

**CHASSIS & SAFETY**

- WINTERHOFF stabibiser/hitch  
WS 3000, single level system
- Anti-snaking coupling and over-run brake system with automatic reversing device
- Drawbar cover
- Wheel shock absorber

**STRUCTURE/AMBIENCE**

- All windows hinged
- All windows: combination cassette with sun and insect protection (not bathroom window)
- Ambient lighting in living compartment
- walk-on roof
- Ceiling lights above seating area
- DOMETIC-SEITZ-rooflight, Midi-Heki, 700 x 500 mm
- Awning light
- entrance step
- Pleated insect-protection blind for entrance door

- Spots as additional lighting
- Split entrance door with integrated window, storage areas and flyscreen

**KITCHEN**

- stainless steel hob/sink combination with glass lid
- Ball-bearing guided cutlery drawer
- Fully extractable stowage baskets/drawers, self-retracting
- Central locking or push lock for all kitchen drawers

**ON-BOARD TECHNOLOGY**

- Operating panel for lighting system and tank display
- Gas regulator with over-pressure protection (DIN EN 12864)
- Central gas distributor in kitchen area

Overall length incl. drawbar

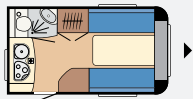

Interior length with window bench

The roof/wall thickness on all models is 31 mm, the floor thickness 40 mm. Deviations of up to 5% are possible in weight data due to the use of natural materials. All dimensions are non-binding and may be subject to minor changes. We reserve the right to make modifications to equipment and fittings. The water supply system represents the latest technology as of 03/2009 (directive 2002/72/EC).

- 1 Depending on the model and equipment level, the unladen vehicle may be up to 50 mm higher.
- 2 The technically permissible gross weight must not be exceeded under any circumstances.
- 3 The weight in the ready-to-travel state includes the unladen weight of the standard caravan plus the basic equipment. The basic equipment is made up of a completely full 11 kg aluminium gas bottle, a 100 % filled fresh water tank and if applicable a toilet flush tank and cable drum. The basic equipment weight for  
350 – 400 SF: 61 kg  
400 SFe – 495: 62 kg,  
540 – 720: 87 kg,  
WLU,WFU,KMF: 71 kg
- 4 The loading corresponds to the difference between the „technically permissible gross weight“ and the „ready-to-travel state“. This value must take account of the values for optional extras and personal items.

**NOTE:**

the models featured in the brochure also currently have optional extras or decoration that are not part of the standard scope of delivery. Deviations in terms of structure and colour compared to the featured furnishings are subject to change provided they have to do with the nature of the materials used and are found in the trade. The same applies to technical changes to the vehicle provided the product quality remains the same overall or is improved and the purpose of use is not impaired.
