## *Hobby – always a good decision*

Exciting natural landscapes, foreign cities and places, people – making new friends – the best way to experience this is to go on holiday in a motorhome.

Motorhomes have been made in northern Germany for over 40 years. Our experience in development and production is evident in every Hobby motorhome. Our goal is to implement the right ideas in a contemporary and optimal technical manner, thus turning mobile travelling into a relaxing holiday treat. Hobby motorhomes are also characterised by their distinctive design. Whether it's their elegantly curved exterior walls or individual design details, a Hobby is and will remain one thing: unmistakable!

Harald Striewski  
Owner

Are you a globetrotter? A family holiday by the beach or city breaks for two? Our various model series and layouts are just as individual as your holiday expectations. The deciding factor is what you like! Take your time and choose your new motorhome at your own leisure.

What is really important to you on holiday? How big should the kitchen be? Do you prefer to sleep over-cab or in a cosy double bed? Do you need a spacious garage at the rear for your bikes?

Every one of our models offers practical solutions for your personal needs.

Choose a Hobby motorhome.

Yours sincerely

## SAFETY ✓

We carry out regular testing of our motorhomes on the automotive industry's most demanding test tracks. During these tests, the vehicles are subjected to extreme strains, so that you can always enjoy your holidays without a care in the world. The safety of our motorhomes is a key priority at Hobby.

## FITTINGS & DESIGN ✓

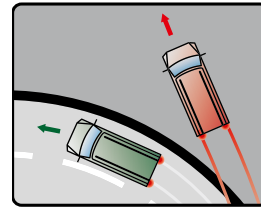

We have set the benchmark in terms of fittings and design for many years in the leisure vehicle sector. Hobby offers far more fittings as standard than many other manufacturers. The great success of Hobby motorhomes however can be attributed to their exclusive design. A Hobby has been voted „Motorhome of the Year“ over 20 times.

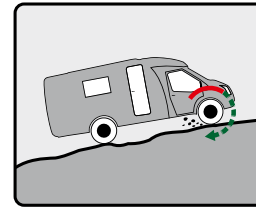

## QUALITY ✓

Quality is a key component of Hobby's corporate philosophy. Our management system is certified to the latest ISO 9001:2008 standards. The quality of our vehicles is constantly monitored and documented at fixed production stations. Only when all quality checks have been successfully passed are Hobby motorhomes made available to the public.

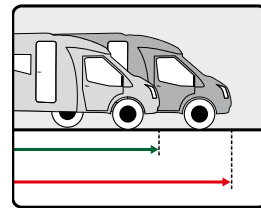

# ARGUMENTS

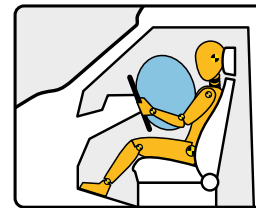

ABS (anti-lock braking system)

ASR (anti-slip control)

Brake assistant

Airbags

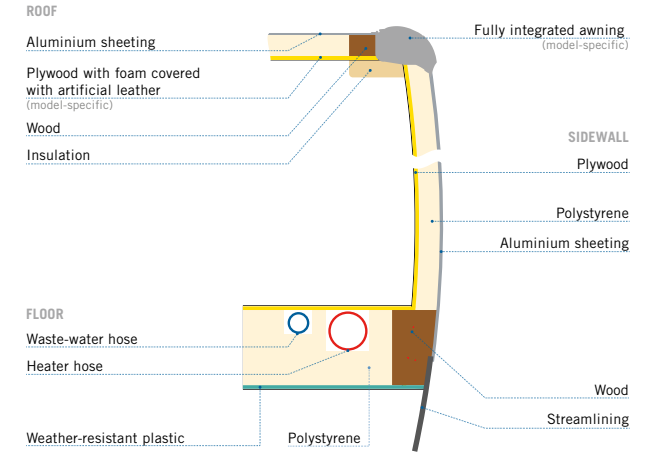

Safety systems shown are model-specific and are not available for all basic vehicles.

## TECHNOLOGY & SAFETY

Many safety features that you will know from car construction can be found as standard in our vehicles. An anti-locking brake system (ABS) means the motorhome remains fully controllable in the most difficult situations. Many other safety features, e.g. airbags, electronic immobiliser, ASR or traction control, central locking and extended exterior mirrors give you the kind of safety you need for long tours.

## BASE VEHICLES

When manufacturing our motor homes, we rely on three tried-and-tested chassis manufacturers: Ford, Fiat and Iveco. With its reliable modern engines, Ford is perfect for our compact models. Customers looking for a more exclusive option will be delighted with the impressive driving dynamics and individual design of the Fiat Ducato models. For our luxury class we use superior, quiet-running Iveco vehicles.

Cross-section: floor/sidewall of the Toskana/Toskana Exclusive range

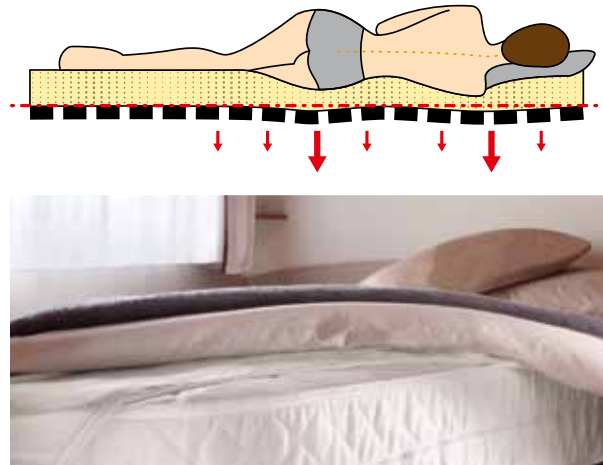

## WINTER SUITABILITY

Hobby vehicles are particularly popular in Scandinavian countries, and with good reason. With their sidewalls and roof made of 34-mm-thick highly insular sandwich elements, and Webasto Thermo Top C parking heating, which keeps the driver's cabin pleasantly warm via the vehicle fans, they make winter caravanning a delight. (Optional extra)

## LIGHT AND ECONOMIC

One of our designers' key objectives is to save weight without compromising on comfort. New driving license regulations mean the 3.5-ton class is now more appealing than ever. By intelligently lengthening the frame alone, we have been able to cut weight depending on the vehicle type by up to 23 kg. The targeted use of lightweight construction materials has brought further weight benefits. Less weight helps reduce the fuel consumption of our vehicles.

## SLEEPING COMFORT

After a long day's touring, nothing is more important than a restful night's sleep – try it for yourself. Hobby slatted frame systems made of flexible multi-layered beech wood offer the kind of sleeping comfort you enjoy at home. The mattresses are also of a very high quality: sprung and cold foam mattresses provide everything you need for the sweetest of dreams. Anyone looking for a little extra comfort can also choose the ergonomically optimised FROLI bed system.

## ERGONOMICS

Hobby vehicles offer quality you can feel. Ergonomics is the key consideration when designing our handles, seats and step treads. Sturdy handles that fit comfortably in the hand make day-to-day work much easier. The new air-sprung, height-adjustable pilot seats, available as an option, make travelling more comfortable and kinder on the body. An electrically retracting step, meanwhile, makes entering and leaving the vehicle a pleasure.

# ARGUMENTS

## INNOVATIONS

Innovative thinking is the key to success. Many innovations in the caravanning sector can be traced back to Hobby. The lightly curved exterior walls are legendary, and are what give Hobby Exclusive models their elegant style. The use of newly developed water filters is also particularly innovative. One optional extra that is appreciated by experienced motorhome enthusiasts is a fully integrated awning.

## AWARDS

The success of Hobby motorhomes is not just a result of their excellent price-performance ratio – it also comes down to constant investments made in quality and development.

Readers of specialist magazine promobil selected Hobby for the motorhome of the year award over 20 times. In 2008, Reisemobil International magazine carried out a major customer survey of motorhome owners, which saw our motorhomes pick up the

Customer King Award in the price/performance, design and workshop categories. We are particular proud of the Golden Steering Wheel that we won for our T 600 GFS.

One of our greatest compliments was paid by British magazine Which motorcaravan: during a comparative test of competitor vehicles, the magazine declared the Hobby VAN tested “simply the best”. Hobby says thank-you.

### Legal note

Due to the wide number of different Hobby ranges and models, it is not possible to differentiate between features in the Arguments section. We would like to point out that some arguments relate to optional extras and that not all features are available for every model. As such, the arguments outlined are not to be taken as guaranteed product features. Thank you for your understanding.

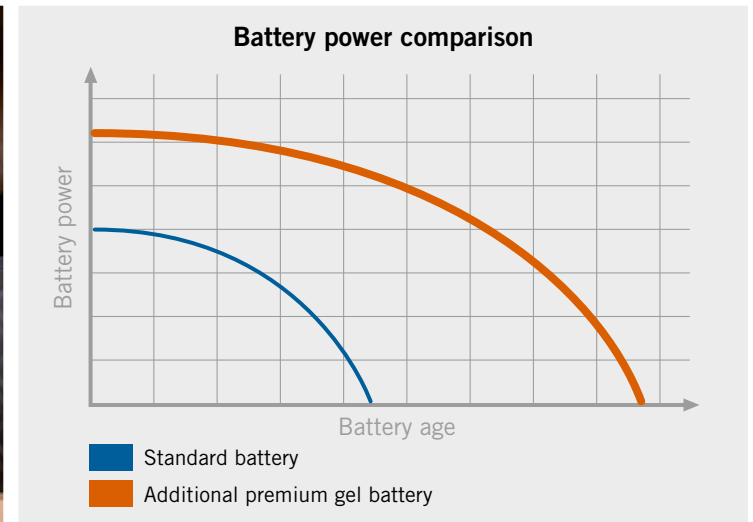

## On-board technology

Are you looking for more independence – including from external energy sources? You can have exactly that with the additional premium gel battery, offering 80 Ah.

Used only by Hobby in the caravan sector, the 'IBScontrol' battery sensor from Hella ensures your battery will never shut down unexpectedly. A colour display shows how much energy is remaining.

Fitted as standard, a high-performance 3M water filter ensures the highest quality drinking water, while a premium pump offers the same water pressure as at home.

All energy-consuming systems can be easily controlled via the practical operating panel.

# DRIVING PLEASURE

## *Travel comfort*

There are many ways to enjoy a little extra comfort when on the road ... and Hobby can show you them!

With Goldschmitt air suspension, you'll feel as if you're travelling on a cloud. The multimedia navigation device from Eclipse features a removable TOMTOM 4.3" navigation unit and additional video system for reversing, offering a clear view at all times and maximum driving safety. The sun blind integrates perfectly into the vehicle and remains free of dirt and rainwater.

The interior lights are easily operated via the new operating panel. Would you prefer a bright light to work under or a cosy evening mood? You decide with our optional LED lighting package, which also allows you to make energy savings. Have a good trip!

# SLEEPING

## *Cosy and comfortable*

An appropriate, peaceful place to relax at any time. Would you rather climb to a cosy over-cab bed in the Hobby Motorhome?

The French drop down bed saves space while being very comfortable. It can be stowed away under the roof of the vehicle with just a push of a button.

Whatever your preference, you'll find the perfect space for sweet dreams here!

# COOKING

## *Three stars for the kitchen*

Would you like to enjoy a quick snack or an elegant dinner at your destination? What is important to you while you are travelling?

The fully-equipped, modern holiday kitchens provide all the options that you need when cooking during your holiday.

The fixed, high quality work surfaces are fully integrated into the large corner kitchen providing plenty of space; the side kitchen can be integrated into the different layouts practically and elegantly.

You can be sure of one thing: your guests will love it!

# COOKING

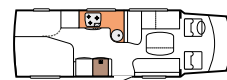

Ravioli is the favourite dish of caravan enthusiasts? Those days are long gone! Our THETFORD professional kitchen meets the needs of the most demanding chefs. Using the high-performance three-burner hob, complex dishes can be easily prepared for larger groups of friends.

And for fresh ingredients, there's always the right fridge-freezer combination: 112 litres of storage space is perfect for couples, while 150 litres is sufficient for the whole family. New and exclusive to Hobby, we now also offer the space-saving Slim Tower, with a 140-litre capacity and removable ice box.

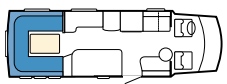

Bon appétit!

# LIVING

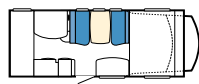

## *A living room with vision*

Where would you like to sit? What would you like to see? Our living ideas have a little something for everyone in mind. Enjoy the morning's first cup of coffee whilst enjoying the view of the valley from the swivelling seats. This way, you will soon come up with the right plans for the new day. In the evening, after a day full of adventures, enjoy the sunset in peace with the whole family. Flexible daytime options that can be integrated practically and elegantly into the different layouts are the focus of the holiday for everyone.

Whether travelling alone, just the two of you or with the whole family travelling in the seats behind the cab offers the best views. Enjoy the selection.

Warm airflow

The generous proportions of Hobby motor homes are immediately recognisable. When taking a closer look at the vehicle, the elegant, well-thought-out details are evident, such as the high-quality wardrobe and the elegant chrome trim around the edge of the table.

Practical features include our additional seatbelt anchorages, which allow up to six passengers to reach the destination safely. And sophisticated furniture units – warm air rises behind them, ensuring it is well distributed, and creating the optimum room temperature.

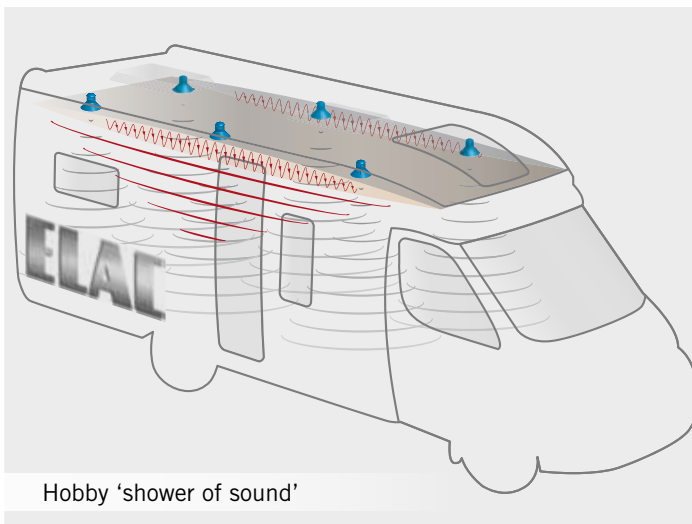

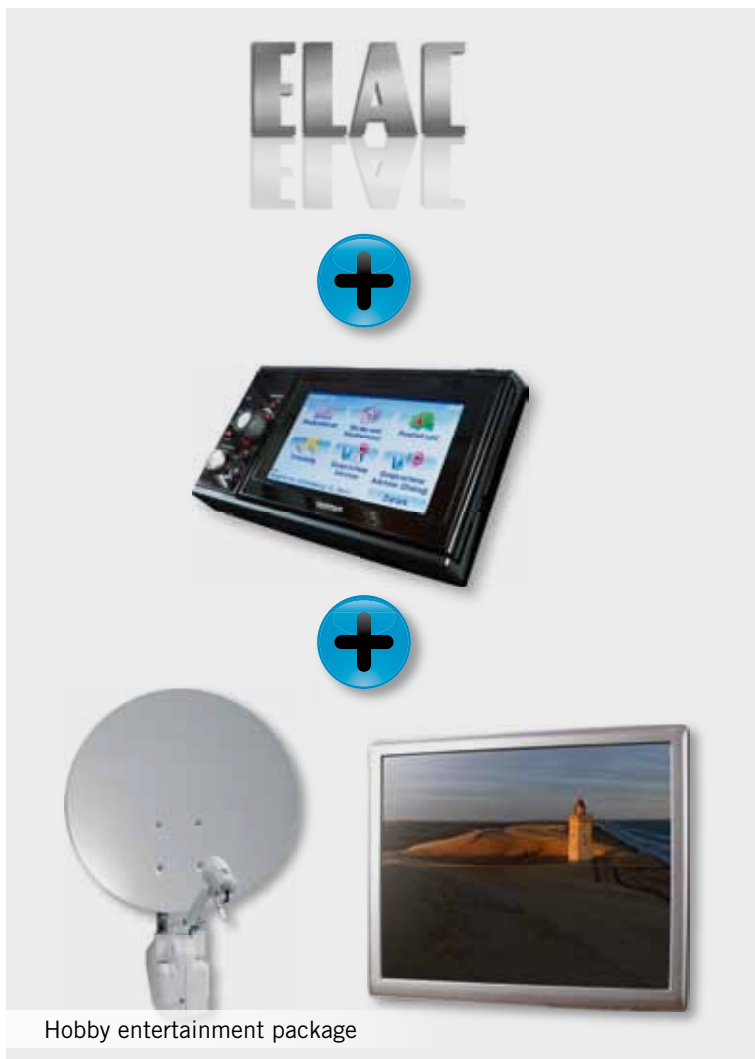

Bar in entrance area

Lighting elements  
(model-specific)

Roof light in the driver's cab  
(model-specific)

Do you like it light? The roof window in the driver's cab means you can also enjoy the summer sun while driving. In the evening, a host of lighting elements are available from spots to indirect lights.

On request, your Hobby motor home can even be transformed into a genuine multimedia centre: with a 19" flat screen, satellite dish, Eclipse multimedia navigation system and the exclusive ELAC speaker system, the ultimate in entertainment is guaranteed. Your favourite music sounds as if it has been conjured up live: the sophisticated ELAC system creates a 'shower of sound' in your motor home. A precisely balanced musical network, hidden above the roof lining, provides rich hi-fi tones.

High-end systems, made in Germany.

## *Each one is in a league of its own*

Love mobility and want to feel that you don't have to compromise on anything even when you are travelling?

Good handling, lots of driving pleasure, generous space and the tried-and-tested performance of the three classic chassis from Ford, Fiat and Iveco make every model a perfect motorhome!

You will find many different layout concepts in the low profile models Hobby Van, Siesta Exclusive, Toskana and Toskana Exclusive. Each model series has its own distinctive style. Whether it is everyday or just on holiday – you will sense the unrestricted mobility here immediately.

The layouts of our over-cab Siesta and Sphinx models provide a generous amount of space. The cosy „sleeping area“ above the cab comfortably separates the living and sleeping areas.

Our luxury Sphinx models provide an extra helping of space and are a superior companion for your holiday.

Every Hobby motorhome provides ultimate holiday experiences at fair prices. Whether you are on the road with the economic Hobby Van Classic, suitable for everyday use, or discover the world in the elegant Hobby Toskana Exclusive – your personal taste decides.

VAN

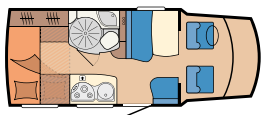

*Goodbye routine, hello holiday.*

Do you need a little time away from the stresses and strains of everyday life now and again? Then simply put your key in the ignition and leave your routine behind.

The Van is the most affordable entry-level model among our

motorhomes, yet offers the kind of comfort you would not want to be without when on the road. Two basic layout varieties are available to choose from: the vehicle is available with or without garage, though always features the reliable Ford chassis. Let's go!

<sup>1</sup> The technically permissible gross weight must not be exceeded under any circumstances.

<sup>2</sup> The weight of the vehicle in ready-to-drive state corresponds to the weight of the empty vehicle, including lubricants, on-board tools, spare wheel (repair kit where appropriate), fuel (100%), extra battery, all standard

factory-fitted equipment and 75 kg for the driver in addition to the basic equipment. Basic equipment comprises the weight of the fresh water and gas containers, which are filled to 90% of their capacity.

The basic fittings for the following models weigh  
 Van: 110 kg  
 Siesta: 110 kg  
 Siesta Exclusive: 110 kg  
 Toskana: 110 kg  
 Toskana Exclusive: 110 kg  
 Sphinx: 200 kg

<sup>3</sup> The loading corresponds to the difference between the „technically permissible gross weight“ and the „ready-to-travel state“. This value must take account of the values for passenger, optional accessories and personal items.

<sup>4</sup> The towing attachment is a special accessory. Please comply with the maximum permitted towing weight.

<sup>5</sup> With load capacity raised to 3,850 kg or 4,000 kg the number of seats rises from 3 to 4.

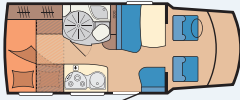

<sup>6</sup> With the „additional seatbelt anchorage“ option, a license for six people can be obtained.

<sup>7</sup> Drive type  
 F: Front wheel drive  
 H: Rear wheel drive

**NOTE**

the models featured in the brochure also currently have optional extras or decoration that are not part of the standard scope of delivery. Deviations in terms of structure and colour compared to the featured furnishings are subject to change provided they have to do with the nature of the materials used and are found in the trade. The same applies to technical changes to the vehicle provided the product quality remains the same overall or is improved and the purpose of use is not impaired.
